

Padlock Removable Bollards

The 1-800-BOLLARDS Padlock Removable Bollards quickly and easily restrict or allow access to trails, paths, parks, maintenance roads, private driveways, Farmer's Markets, stadiums, arenas, houses of worship, schools, universities and city events.

The Embedment Sleeve lid conveniently secures the removable bollard into place

with a padlock. When the bollard is removed, the sleeve's lid closes over the opening for a smooth surfaced and can be secured into place.

Since the 12" long Embedment Sleeve (sold separately) is Stainless Steel, any scratches or nicks caused by bollard insertions and removals resist rust and corrosion.
