

GENERAL NOTES:

1. For additional information contact Gibraltar at 1-800-495-8957.
2. All concrete shall be per specification; minimum 3,500 PSI.
3. Square openings can be boxed out in the location of bollards or set as part of monolithic pour with surrounding pad.
4. #4 x 12" rebar dowels not provided by Gibraltar. No other rebar is required for the bollard portion of the installation.
5. Threat side face of bollard shall be installed a minimum of 18" from face of curb.
6. The G-1621F Fixed Bollard is engineered to meet the requirements of ASTM F3016 with a rating of S20 P1 based on the tested and certified results of the G-1631F bollard.
7. Bollard coated per customer specification.
