Montgomery, AL 36108

Subject: Certification letter for Norshield Security Products, LLC

Dear Mr. White,

Based upon your request, a technical representative of the Department of State (DOS) has reviewed and evaluated the technical review submittal package based upon the previously certified 15-minute Norshield model ATW1510A-P (GPS-15R-NOR-06) Panel. This product merges a certified 15-minute frame with a certified 15-minute steel panel insert to create a certified system.

The model Panel has been determined to meet the DOS certification criteria for 15-minute forced entry and ballistic resistance. Under the provisions of SD-STD-01.01, Revision G (Amended), *Certification Standard, Forced Entry and Ballistic Resistance of Structural Systems*, The Panel has been certified with a DOS code of 2123 and the DOS model number of GPS-15R-NOR-06. Please refer to the DOS model number in all correspondence with the Department of State.

The GPS-15R-NOR-06 will be placed on the DOS list of certified equipment which is available for use by DOS architects, engineers and planners. Please note your product has to compete with other bidding manufacturers who are certified with the same classification. We cannot guarantee that your product will be chosen for our facilities.

Thank you for your interest and endeavors in protecting our personnel and facilities overseas.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Richard J. Ingram".
