Protective Design Center

Perimeter Security Partners, LLC
5038 Thoroughbred Lane
Brentwood, TN 37027

Dear Perimeter Security Partners, LLC:

The Protective Design Center received the submitted test report for the M50 P2 Perimeter Security Partners Typhon, 200' Post and Cable Barrier from Calspan Corporation (ASTM F2656-20, test number BR0059, test date February 26, 2021 and report date April 16, 2021) and determined the report meets test standard ASTM F2656-20, *Standard Test Method for Vehicle Crash testing of Perimeter Barriers*. The Protective Design Center will add the barrier to the Department of Defense Anti-Ram Vehicle Barrier List prior to the end of March 2022. (Three CD submissions were required to get a downloadable copy of the report. The third and final (successful) submission was received on September 13, 2021.)

The acceptance of the submitted test report only indicates that the test report met the criteria specified in ASTM F2656. Acceptance is neither an endorsement of the barrier nor a guarantee that the barrier will be in any Department of Defense project.

The Protective Design Center maintains the Department of Defense Anti-Ram Vehicle Barrier List and makes it publicly available at <https://www.nwo.usace.army.mil/About/Centers-of-Expertise/Protective-Design-Center/PDC-Library/>.

The Protective Design Center treats all submitted test reports as proprietary information and safeguards them from public disclosure.

Thank you for your interest and endeavors in protecting our personnel and facilities worldwide. If you have any questions, you may contact Mr. Brian Erickson at (402) 995-2394, or via email at brian.w.erickson@usace.army.mil; or Ms. Ann Mittelsdorf at (402) 995-2930, or via email at ann.m.mittelsdorf@usace.army.mil.

Sincerely,

A handwritten signature in black ink, appearing to read "Curt P. Betts".

Curt P. Betts, P.E.
Chief, Protective Design Center
