

**BETTER BUILT
STRONGER BUILT
PANEL BUILT**

A truly Ballistic Rated Building requires all the building's components to be ballistic rated as well. Additionally, the system's design and accessories must be laid out in order to provide a level of protection that is greater than any threat it may face.

For these reasons, Panel Built's ballistic building components, ballistic doors, windows, gun ports, and more, go above and beyond to ensure the building's occupants are safe and able to combat force brought their way.

Ballistic Rated Options
